

## Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008

### Introduction

The following pages describe the major transits that you will be experiencing over the coming period. These pages can give you insight into the challenges that you will encounter and the underlying lessons that they offer you. There are literally hundreds of transits occurring for you each year, so this report focuses on those which occur more infrequently and therefore present the greatest challenges.

The "Exact" transit dates and immediately prior to those dates are the times when the energies described will be felt most strongly and when actual events related to the transit are most likely to occur. Many transits will have three "Exact" dates listed. This is because the transiting planet goes retrograde (R) and then direct (D) again, causing three "hits." When this is the case, the issues associated with the transit will surface on the first hit, there will be some progress toward resolving these issues on the second hit, and the third hit will bring final resolution.

Read your transit report over once now to get a general overview of the coming period. Then, as the issues described in this report begin to appear in your life, you can refer back to this report for suggestions on how to best handle the changes that you are experiencing. Even the worst transit can be a valuable experience if you are fortunate enough to "get" the lesson that it offers.

The readings stress that you are the ultimate decider of your fate. Astrology can give you a "weather report" on the energies influencing you, but it is up to you to decide how you will react. Some people can benefit greatly under normally difficult transits because they eagerly meet the challenge head on. Others will not benefit from the most positive transits because they did not pursue opportunities presented to them. Request a personal reading if you would like to examine your upcoming changes more thoroughly.

Now on to your personal transits report.

**Uranus trine Neptune: 1/2/2008 12:08 PM, Exact**

This transit occurs only twice in each 84-year cycle of Uranus. During this time you will be more interested than usual in spiritual and philosophical matters. You will explore the meaning behind everyday occurrences in your life and will become more aware of your role in the larger plan of the Universe. Now is an excellent time to study spiritual and metaphysical subjects (such as astrology), and you would benefit greatly from doing so at this time. Concepts which you previously considered abstract will be more acceptable to you now and you will be able to put them into operation in your life.

You are unusually idealistic now and will work hard to manifest your ideals in life. Because you are more compassionate toward others (even those you don't know), you want to work to make the world a better place for all. During this transit you may frequently find yourself in the position of arbitrator because you generally have a knack for solving disagreements.

Your increased level of concern for your fellow man may lead you to work with others to help cure the ills of society. You are impatient with suffering and injustice and are willing to give of yourself in order to help those in need. Your personal relationships will be the last area you will practice this compassion, however, because you are interested in helping mankind in general.

This transit brings to light new Universal truths which you had previously overlooked or avoided. You can clearly see the largeness of the Universal plan and the complexities involved, and you are anxious to share this realization with those around you. You are highly intuitive now and may have psychic experiences during this time. This is also a good time to examine past-life memories.

**Uranus trine Moon: 1/25/2008 9:26 AM, Exact**

This transit occurs only twice in each 84-year cycle of Uranus and is an excellent time to make changes in your life, both internally and in your home environment. You may find that memories of the past (perhaps unpleasant ones) will resurface. For the first time you will be able to see the past in a different light and to modify old attitudes that you have carried over from that time.

## Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008

Women will be very important in your life during this time, especially your mother and female relatives. They will help you gain new understanding of your own unconscious attitudes and habits in order that you can change them easily. You do not resist change so strongly at this time, but feel it is the natural thing to do for your own growth. This is an excellent time to change your residence and to expand your circle of friends. Unexpected financial gain is also common with this transit.

You may begin a new romance under this transit--one that brings with it feelings of excitement that you have never known before. The key to the success of any such relationship is that it maintain that feeling of newness and excitement indefinitely. This, of course, does not happen by itself and must be brought about purposefully by both partners. You may also find it necessary to change your existing relationships to be more free and exciting. You are subject to emotional boredom at this time.

Watch the many changes in your life with anticipation and excitement, not anxiety. You will be able to see their value in retrospect. Use your intuition to help guide you through current transitions. You are more psychic than usual and may receive helpful intuitive insight.

### **Jupiter trine Sun: 1/30/2008 2:54 PM, Exact**

This is a time of high optimism and pleasant feelings. It is a good time to explore those areas of your life which you have previously feared to venture into. You are very creative now and can assert yourself confidently in creative ventures. This transit increases your chances of receiving recognition and reward for your creative efforts. The wind appears to be at your back, and you can accomplish a great deal at this time.

You may indulge in activities that are traditionally associated with Jupiter, such as travel, physical activity (such as hiking), or higher education. You may travel to foreign places or be increasingly exposed to more "international people". You may even discover a new love through these pursuits. At this time you are more curious and open-minded about new and different cultures and lifestyles. You get along well with others now and have a healthy sense of humor about life. Your health is also good at this time.

You feel very generous and benevolent toward others now, especially those who are less fortunate. The only danger with this transit (like many Jupiter transits) is that you will be over-optimistic and take foolish risks and gambles. You feel a little like Superman right now, and your estimates of what you can accomplish may be a little unrealistic for a mere human.

## **Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008**

Finances usually improve under this transit. At the very least, you will not have to work so hard for the money you get. It is also an excellent time to resolve legal matters. You will feel like surrounding yourself with beauty, and it is good to reward yourself. Just be careful that you don't spend as much (or more) money than you take in.

### **Jupiter trine Mercury: 1/31/2008 8:09 PM, Exact**

This is an excellent time for communication and intellectual endeavors. Your ability to plan ahead is quite good now, and you can make good judgments. It is a good time to negotiate contracts or seek new opportunities through communication.

Your mind is capable of much expansion and growth now, and you are able to see abstract ideas from a practical viewpoint. It is a good time to take on the study of a new subject, undertake a new project, or travel to foreign lands. You can plan your future quite intelligently now and can communicate your ideas with a new clarity. For these reasons, it is an excellent time to buy and sell (especially real estate) or to make well-planned financial investments.

You feel like being sincere in your communications with others, and you will be well received and respected for your truthfulness. You can combine both warmth and confidence in your communication with others, and this makes your ideas more palatable to the average person. Even if they do not all agree with you (and of course they won't), they will respect your logic. You are self-confident enough to treat others with respect without feeling that it detracts from your status.

At this time you feel more optimistic and self-confident than usual, and you are physically strong. Yet you are also able to judge your limitations now and are not likely to overcommit yourself. Your life is well-planned and your thoughts more organized. You make a very positive impression on others now and may receive a promotion or new career opportunity. Advertising and promotion campaigns will be more effective.

### **Jupiter trine Uranus: 2/2/2008 9:56 PM, Exact**

This transit is known for being lucky, and always brings something unexpected. You feel like doing something out-of-the-ordinary at this time and want to explore new perspectives on life. You may feel the urge to travel and may have the sudden opportunity to do so during this time.

You may have new opportunities presented to you, seemingly from out of nowhere, such as money from the blue, a move to a better residence, a promotion, business opportunity, or a chance meeting with someone who contributes to your success. You may make exciting new friends or join a scientific, religious, occult, cultural or

## **Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008**

educational organization which provides the support you need to achieve your goals. Whatever it is, it will require immediate action on your part and it will probably be a wild departure from your norm. You won't have time to sit around and consider the outcome.

Your mind is particularly sharp and inventive at this time. You may come up with innovative ideas that can be put into practice at a later time. Spiritual and metaphysical subjects are of great interest to you now, and you strive to incorporate these principles into your belief system and everyday life. Your intuitive and psychic abilities are heightened; it is a good time to practice astrology. Although this transit is known for its luck in gambling, this will not help you if you are already "unlucky" in nature. Be cautious if you gamble and don't spend more than you have.

### **Jupiter trine Pluto: 2/20/2008 1:16 AM, Exact**

This is a time of positive change and growth, for these types of changes come more easily now. Now is truly a time to "go with the flow" of life. Everything seems to work out the way you want it to, or if it doesn't, you find that the end result was better than the one you originally preferred.

You can accomplish a great deal during this time, but don't be selfish with your good fortune. You feel driven to make the world a better place, and it would be more rewarding to work with others now toward a common goal and to share your success with people you love and respect. This is the more positive expression of this transit and will reap much greater benefits in the long-run. Concentrating only on your own gain will result in your later losing what you acquire now.

Your understanding of problems and your ability to plan and carry out positive change will manifest in all areas of your life--your inner growth, your relationships with others, your career--and you will become much more aware of the extent of your personal power. It is possible that others will look to you for guidance now and that you can help them to grow through your example.

Traditionally, this is said to be a time of professional success, marked increase in wealth or resources, or attainment of political power. You could receive an inheritance, a tax refund, or much-needed funding. You will expand your consciousness by applying educational, religious, and metaphysical and philosophical principles in your life. This is an excellent time for meditation, astrology, or spiritual practices, such as a vision quest. At the very least, it will provide an excellent opportunity to "get your stuff together" and to make your life work the way you want it to.

**Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008****Jupiter trine Ascendant: 2/25/2008 4:50 PM, Exact**

You will grow a great deal through your contacts with others at this time. You have a keener sense of what it takes to maintain a healthy give-and-take balance in relationships. You feel quite generous and are also very optimistic and self-confident. Your positive way of thinking makes you a pleasant person to be around. You are very supportive of your friends, and you tend to bring out the best in others. And, of course, since what goes around comes around, you will be amply rewarded for your generosity during this transit.

New teachers may enter your life during this time, or you may find yourself in the role of teacher with someone else. Whatever the case, new friends that you meet now will be of great help to you in the future. This would be an excellent time to travel, or to move to a better home. You need more elbow room now, since you feel the need for greater freedom.

This transit can bring a new love into your life. Or, you may acquire more friends that will be helpful to you. Any new relationship formed at this time will be quite beneficial to your personal growth, whether or not the relationship itself stands the test of time. You may return to school under this transit or take a course that you find answers some of the many questions that are surfacing for you now.

You have an increased curiosity about spiritual truths and are anxious to learn as much as you can. You will be exposed to different cultures and belief systems, probably through your friends and loved ones. The new truths that you explore will be very deep and spiritual, as you are not inclined to be superficial now. You see depth in all the wondrous secrets of Nature and can understand your role in the larger Universal Plan.

**Jupiter sextile Neptune: 2/28/2008 4:17 PM, Exact**

You feel very optimistic about your future now, and you will set idealistic goals for yourself. This is wonderful, because by imagining that we are accomplishing the nearly impossible, we then become capable of doing so. Just be sure that you see the whole picture in a realistic light before setting major goals now.

It is important to you now that you serve others. This can take many forms--as many as there are people--and you may find yourself drawn to contribute your time or energy to a non-profit or other worthy cause. It is not difficult for you to make the kinds of personal sacrifices necessary for this kind of work. You have a sincere desire to help those less fortunate than yourself. You'll also receive good karma during this transit, as you are recognized for your past efforts.

## **Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008**

Indeed, you will find yourself rearranging your spiritual belief system now. You may find that orthodox religion does not answer all of your questions any longer, and you have a desire to know more about Universal truths and philosophical matters. You may become interested in metaphysical subjects which you had previously ignored, such as astrology. It is possible that you will encounter a spiritual teacher during this transit, either in your daily life or through joining a spiritual group.

Be careful not to take many chances now. You feel so self-confident that you believe nothing could go wrong. Even though things may go very well now, don't quickly spend any resources you may receive with the confidence that more is on the way. You may guess wrong; avoid gambling during this transit.

Feelings, emotions and your personal relationships are very important to you now. You feel emotionally generous, and relationships are generally good. Perhaps an affair that has been building up for a long time will come to fruition. You are in a good position now to choose which relationships are worth your investment of time and/or energy and which are not.

You are not particularly self-disciplined now, and you may tend to be lazy, taking others for granted. You may even feel that the world "owes you a living." Avoid becoming very demanding both in your personal as well as professional life. You want others to reach out to you and make things happen for you instead of taking charge of your life.

Your relationships with women will run from one extreme to the other. Which one it will be depends on your response to the energies of this transit. If you become overbearing and demanding, the result will be unpleasant; if you are warm and generous, you will be repaid tenfold. You are likely to act out these energies with women, whether lovers, friends or relatives, no matter what sex you are.

You are feeling particularly self-indulgent now and should be careful not to overeat if you are inclined to gain weight. Also be careful not to drink too much. Remember, practice everything in moderation. Also, be careful not to blow your entire bankroll on a

Indeed, you will find yourself rearranging your spiritual belief system now. You may find that orthodox religion does not answer all of your questions any longer, and you have a desire to know more about Universal truths and philosophical matters. You may become interested in metaphysical subjects which you had previously ignored, such as astrology. It is possible that you will encounter a spiritual teacher during this transit, either in your daily life or through joining a spiritual group.

Be careful not to take many chances now. You feel so self-confident that you believe nothing could go wrong. Even though things may go very well now, don't quickly spend any resources you may receive with the confidence that more is on the way. You may guess wrong; avoid gambling during this transit.

You feel quite generous and are also very optimistic and self-confident. Your positive way of thinking makes you a pleasant person to be around. You are very supportive of your friends, and you tend to bring out the best in others. **Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008****Jupiter trine Pluto: 8/9/2008 7:52 PM, Exact**

This is a time of positive change and growth, for these types of changes come more easily now. Now is truly a time to "go with the flow" of life. Everything seems to work out the way you want it to, or if it doesn't, you find that the end result was better than the one you originally preferred.

You can accomplish a great deal during this time, but don't be selfish with your good fortune. You feel driven to make the world a better place, and it would be more rewarding to work with others now toward a common goal and to share your success with people you love and respect. This is the more positive expression of this transit and will reap much greater benefits in the long-run. Concentrating only on your own gain will result in your later losing what you acquire now.

Your understanding of problems and your ability to plan and carry out positive change will manifest in all areas of your life--your inner growth, your relationships with others, your career--and you will become much more aware of the extent of your personal power. It is possible that others will look to you for guidance now and that you can help them to grow through your example.

Traditionally, this is said to be a time of professional success, marked increase in wealth or resources, or attainment of political power. You could receive an inheritance, a tax refund, or much-needed funding. You will expand your consciousness by applying educational, religious, and metaphysical and philosophical principles in your life. This is an excellent time for meditation, astrology, or spiritual practices, such as a vision quest. At the very least, it will provide an excellent opportunity to "get your stuff together" and to make your life work the way you want it to.

**Mars trine Jupiter: 8/12/2008 1:39 PM, Exact**

Rewards for past good works are possible. Projects progress smoothly. Athletes are favored with skill and luck.

**Uranus trine Mars: 8/13/2008 3:27 AM, Exact**

This transit occurs only twice in each 84-year cycle of Uranus. You will be quite active during this transit. It will help you to overcome any natural shyness and assert your needs at this time. This is a good time to break old habits and take on new challenges. You are quite likely to succeed in your endeavors and to gain new appreciation from others.

## **Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008**

You may work on new projects with a group, but only if you are allowed your freedom of self-expression. You are not in any mood for compromise. While you insist on doing things your way, you are not interested in imposing your will on others. Your need for independence and freedom to be yourself is of utmost importance to you now. You may extend this to working for groups involved in seeking liberation or freedom for others, such as civil rights or other movements.

This is a great opportunity to take control of your life and show what you can accomplish. You have a great deal of confidence in yourself, and this is a favorable time in the fields of engineering, science, electronics or metaphysics (including astrology). This is also an excellent time to gain the support of authority figures, including government agencies. Since you are feeling more energetic than usual, this is also a good time to try that new exercise technique or join a sports team.

### **Saturn conjunct Sun: 8/17/2008 12:01 AM, Exact**

This transit occurs only once every 28-30 years and is a culmination of energies that were set in motion 14-15 years ago when Saturn opposed your Sun. This was a time of adversity for you, but at the same time you made new beginnings that will soon reach a climax--of either success or failure. This is a time of tremendous hard work and responsibility, for this is the only way to achieve the success you seek. But your responsibilities in your personal and work life seem to limit your freedom. Try to concentrate on the important tasks at hand. You can reward yourself for a job well done once this transit has passed.

You will strive to achieve your idea of success now. With your increased self-discipline and endurance, you can accomplish a great deal. If you do experience failure at this time, do not regard it as a complete one. You've learned a great deal over the past 15 years, and you benefit from past mistakes. Don't start any failed projects over until you have examined and corrected flaws in your plan. Otherwise, this can be a time of personal and professional defeat and working too hard can cause possible physical or mental health problems.

During this transit you'll take your relationships very seriously, as well as your obligations to others. You may feel isolated and lonely now, and you may withdraw from loved ones or undergo a breakup. If this occurs, it is an indication that such a relationship was not contributing to your success but instead detracted from it. Solid relationships will endure the test of Saturn.

**Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008****Saturn conjunct Mercury: 8/19/2008 2:30 AM, Exact**

Your thinking is quite serious at this time, maybe even pessimistic. Your mental perspective is narrowed during this transit, and you are likely to limit yourself to one project or assignment without thoroughly considering the wider range of other factors in your life. You are expending a great deal of mental energy but seeming to make little progress. Your mind is highly disciplined, but you may still tend to overlook the broader perspective.

This is a great transit for concentrating on a single idea and carrying it through to fruition. You can accomplish a great deal now, yet you must make decisions with an eye to the future, considering the consequences of your actions many years from now. Try not to worry so much, and be willing to reach just beyond your grasp. Otherwise, you could miss excellent opportunities because you're playing it too safe.

This transit can bring problems with speech, hearing or the nervous system. This is often a period of depression because it brings a tendency to be overly concerned with achieving an impossible state of perfection. This can often make you critical or even intellectually unkind, which can alienate others. You approach communication very "matter-of-factly" and are not likely to engage in idle chatter. You expect everything (and everyone) in your life to serve a practical purpose. If not, you can coldly sever ties and end relationships.

**Saturn conjunct Uranus: 8/22/2008 3:21 PM, Exact**

This transit will occur only once in every 28- to 30-year cycle of Saturn and is usually a time of great stress. You are frustrated now and feel that you are stuck in a dull, boring rut. Even though you try to break free from the monotony, your obligations and responsibilities seem to hold you captive. During this transit you are likely to make sudden decisions and take impulsive actions which will surprise even your closest friends. You may leave a relationship or a job without warning or suddenly move to a different location. However you choose to do it, you feel an overwhelming need to rebel against oppressive situations in your life.

The more rigid and inflexible you have been in life, the more difficult this transit will be for you. That is because this transit tends to release the tension which you have been building up until now. The more tension there is, the more violent your reaction to this transit. If you have been flexible and adjust well to change, you may be able to make major positive changes in your life now without upsetting the foundations you have worked so hard to build. If you feel the need to rebel against your current life situation, be sure not to throw the baby out with the bath water. Certainly there are some parts of your life which are satisfactory and which should be preserved, even if they need to be modified.

## **Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008**

In the long run it would be best if you cooperate in making needed changes in your life now. If these changes are not made now, you will be faced with similar but even more difficult situations in about 14 years when Saturn opposes your Uranus. Once you have chosen a course to pursue, remember to use caution. Although you feel like working and accomplishing minor miracles now, you are also more tense and high-strung than usual. Be realistic about what you can handle and don't work yourself into a frazzle, for this could result in illness or injuries.

### **Saturn square Midheaven: 9/16/2008 4:09 AM, Exact**

This transit occurs twice in every 28- to 30-year cycle of Saturn. At this time you will closely examine your career choices and decide whether you need to change your direction. Perhaps you will even decide to abandon your old career and establish a new one.

You will also examine your personal life to decide what is needed to make it more satisfying. You may feel suddenly distant from your friends, as though they are no longer contributing to your growth and happiness. It will become more important to you now that your relationships be supportive. It may not be easy now to satisfy the demands of both your personal and professional lives. Difficulties with parents or other elders are common at this time, and they may become more of a burden to you.

**Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008**

This transit sometimes provides a test for the path you have chosen. Opposition from others may force you to question the validity of your goals. This can be very productive if you are honest about your own self-appraisal and then take steps to implement positive changes. If changes are needed, it would be easier to change directions now than to continue on for years and have that much more time, energy and possibly money invested in an inappropriate endeavor.

**Saturn conjunct Pluto: 9/19/2008 3:43 AM, Exact**

This transit will occur only once in every 28- to 30-year cycle of Saturn and is a time of focused hard work. You will find that your efforts are repeatedly blocked by lack of resources or other impossible demands placed upon you. It could be that your superiors or authority figures, such as government officials, will limit or restrict you in some way that hampers your freedom of expression. If you are not able to remove yourself from their control or in some way avoid the restrictions imposed upon you, you will become frustrated and angry (perhaps even violently so).

You may have to learn to get along on limited finances now or suffer some other kind of shortage in your life. If you spread yourself too thin now or take on tasks beyond your realistic ability, you will set yourself up for failure in the future when the foundation of your work is found to be too weak. If you pay attention to details now and limit yourself to what you can reasonably handle, you will be able to bring about careful constructive change in the structures you have built in your life. This is an excellent time to study occult or metaphysical subjects. Your intuition is very active now, and you may want to practice developing your own latent psychic abilities.

Pay attention to your health now. One possibility with this transit is that you could sustain an injury or illness which in some way incapacitates you. This would in turn be highly frustrating for you because it would limit your freedom of movement. You are undergoing a transformation now, and in the end you will look back and see that events which occurred now were necessary and even desirable, even if it doesn't seem that way at the time.

**Mars square Mars: 9/21/2008 4:04 PM, Exact**

The ego may run roughshod over any opposition. Acting on impulse generates frustrating results. Irritability breeds confrontation.

**Transits Reading for Keanu Reeves For 1 Year Starting 1/1/2008****Mars square Venus: 9/24/2008 7:04 PM, Exact**

Feelings of affection may be over-shadowed by pure, unadulterated lust. Squelched passion turns to anger. Relationships are rocky.

**Saturn conjunct Ascendant: 9/27/2008 6:18 PM, Exact**

This transit will occur once in every 28- to 30-year cycle of Saturn and is a time of greatly increased responsibility. During this time you will eliminate people and situations from your life which are no longer contributing to your growth and success. In turn, you will replace them with others which are more supportive of the new structures you are establishing in your life.

You will approach your relationships very practically now, and you will not hesitate to coldly sever contact with people who do not serve a practical purpose in your life. All of your relationships will be challenged, but only the strong ones will survive. Others which are draining you or holding you back from accomplishing your goals are likely to end completely.

It is best to seek the company of those persons whose friendship you value now. If you isolate yourself completely, you are likely to become depressed and lonely. Although your everyday responsibilities may become more burdensome, you should still make time to enjoy the company of those closest to you. Now is a good time to seek the advice of persons who are older and more experienced than you, for they can provide insight into the changes you are undergoing now.

There are many tasks which require your attention and energy now, and you will find that you have less free time for recreation. You will work very hard to achieve your goals at this time, and you will be quite productive. It is better to work on finishing existing projects rather than to start new ones.

can be a time of constructive self-discipline and self-denial. You are able to see that what goes around, comes around and that all things come to those who wait. You are grounded and patient now, and this is an excellent time for activities requiring a focused mind, such as meditation.

You are seeking to blend your spiritual and material worlds at this time. Now is a good time to work for a charity or religious organization. You are able to put the needs of your higher self before your ego needs. Be careful not to be a spiritual snob and become rigid and judgmental in your beliefs. You are highly intuitive now, especially with regard to business matters. Friends and business associates from your past will resurface in your life and may provide you with valuable assistance.

Your thoughts are very serious at this time, and you can make traumatic breakthroughs in understanding both yourself and the world around you. You will be attracted to individuals and groups who share your ideals and will find it satisfying to work with others toward a common spiritual goal. Be careful not to take yourself too seriously, and avoid adopting a dogmatic, self-righteous attitude.

This is wonderful, because by imagining that we are accomplishing the nearly impossible, we then become capable of doing so. Just be sure that you see the whole picture in a realistic light before setting major goals now.

It is important to you now that you serve others. This can take many forms--as many as there are people--and you may find yourself drawn to contribute your time or energy to a non-profit or other worthy cause. It is not difficult for you to make the kinds of personal sacrifices necessary for this kind of work. You have a sincere desire to help those less fortunate than yourself. Perhaps an affair that has been building up for a long time will come to fruition. You are in a good position now to choose which relationships are worth your investment of time and/or energy and which are not.

You are not particularly self-disciplined now, and you may tend to be lazy, taking others for granted. You may even feel that the world "owes you a living." Avoid becoming very demanding both in your personal as well as professional life. You want others to reach out to you and make things happen for you instead of taking charge of your life.

Your relationships with women will run from one extreme to the other. Which one it will be depends on your response to the energies of this transit. If you become overbearing and demanding, the result will be unpleasant; if you are warm and generous, you will be

repaid tenfold. You are likely to act out these energies with women, whether lovers, friends or relatives, no matter what sex you are.

You are feeling particularly self-indulgent now and should be careful not to overeat if you are inclined to gain weight. Also be careful not to drink too much. Remember, practice everything in moderation. Also, be careful not to blow your entire bankroll on a vacation or a more luxurious apartment because you deserve it. Financial extravagance is one of the dangers of this transit.

You can indeed accomplish a great deal now, but don't overestimate your abilities. You could end up working yourself half to death to make good on commitments you never should have made. You are not superhuman, even though you may think you are. Accept your limitations, and you'll have to make fewer excuses.

The other side of this transit is that it can bring courage and determined effort. The manner in which you manifest these energies depends on how self-aware you are. Learn to stand up for yourself but also to pull in on the reins of your assertiveness. You need to see others' points of view as well as your own. You could experience difficulties if you travel, or problems with people from foreign lands. There is also a danger of legal disputes. Cultivate a little humility and cooperation.

**Mars square Ascendant: 12/6/2008 2:30 PM, Exact**

This brings lots of energy, so it is a good day to work by yourself; but also be prepared for disputes and conflict with others. The best thing to do is to pay close attention to your own personal needs, and to assert yourself when possible. Be careful around cars and machinery.

**Jupiter oppose Venus: 12/9/2008 12:15 AM, Exact**

During this transit your taste will be somewhat extravagant. You are strongly attracted to beauty and can spend a great deal of money surrounding yourself with it. Be careful how you spend your money; you can make some sound investments now, but you must be careful to choose carefully. You may have a feeling that nothing can go wrong, and this only increases your chances that something will.

Although this is usually a pleasant transit, you may encounter difficulties in your relationships (especially if this is indicated by other transits happening around this time). The issue for you in relationships now is one of freedom. There may be a struggle within yourself and/or with another because one of you feels the need for more freedom. Learn to limit your expectations of yourself and promise less. That way you won't put off projects indefinitely because they seem overwhelming. In other words, give yourself a break.

If your relationships have been possessive in nature, this transit will bring the issue out into the open to be dealt with. If you can treat each other with respect and trust, these things can be worked out. There is also the possibility that this transit could bring a new love interest into your life. Let such a relationship stand the test of time before making solid commitments.

Like many Jupiter transits, this one brings the danger of gaining weight (if you are already so inclined). Watch what you eat and don't overindulge in rich food or drink. If you feel more like vacationing than working now, just be sure to stay within your budget, and watch for hidden costs.

It is a good time to reorganize your life in some way--your office, kitchen, etc. You feel like expanding your knowledge about the world and may even enroll in a class now or travel to distant places. Now is also a good time to join a consciousness-raising group or otherwise indulge in self-discovery.

You generally feel good now, and if you have been sick recently this transit will help a great deal to rebuild your strength. This is also an excellent time to improve your family life and to grow in the process. Your finances are likely to improve, and business investments are favored. Legal matters will be resolved with little effort (often to everyone's mutual benefit).

This is a good time to reflect on your goals and to explore ways to eliminate stress and tension from your life. You may become involved in a group dedicated to bettering the world, and this would be a good outlet for your energy now. Actions undertaken with a group at this time are generally successful.

This transit leaves you with a feeling of "laziness," and so you may find that you do nothing but feel good during its duration. If you can, however, take this opportunity to travel or get involved in mind-expanding experiences, study new subjects, etc. The ability to benefit greatly from such activities exists now; you have to add the motivation.
